ONE MAN SIDE LOADER

15° BODY SLOPE

- Prevents trash from falling back into packing hopper
- Increases actual packing area
- Minimizes excessive wear on sloping floor

1/4" SLOPING FLOOR

- Constructed of 1/4" abrasion resistant steel
- Eliminates need for optional floor liner

SINGLE STAGE DOUBLE ACTING HOIST CYLINDERS

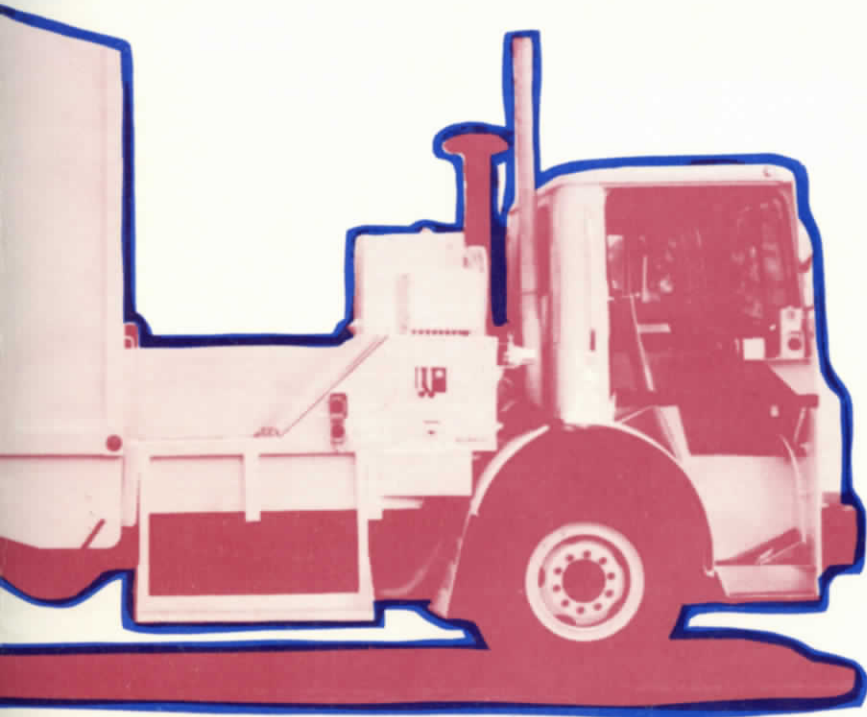

- More lifting power and stability in the dumping position
- Hoist cylinders are identical in bore and rod size to packer cylinders
- Reduces added replacement parts

AUTOMATIC HOIST LOCKOUT

- Prevents operator from hoisting body when packer plate is not fully retracted.

A STRAIGHT 10 INCHES

- One piece constructed packer plate
- Eliminates obsolete hinged two-piece packer plates requiring constant maintenance on hinges, rollers and guide shoes
- Able packer plate penetrates a full 10" into the body preventing trash fallback
- Total packer plate bearing surface of 43"
- Easily replaceable plow steel bearing plates eliminates packer floor replacement

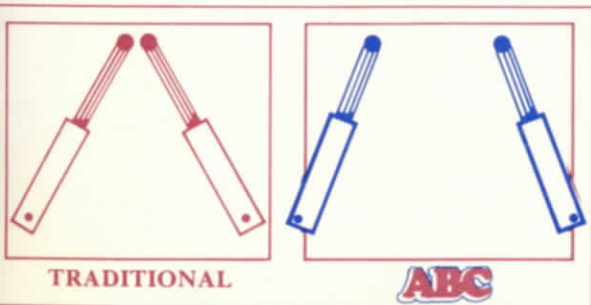

CHOICE OF CHASSIS

- Most chassis manufactured in the United States are suited to **ABC**

OFFSET PACKER CYLINDER MOUNTING

- Virtually stops twisting of packer plate and unequal wear from curbside loading
- Cylinder heads mounted a full 14" apart
- Cylinder pins easily accessible from outside of hopper

RIGHT HAND STAND DRIVE

- Easy entry
- Available weather partition

AND MORE . . .

- Rear door safety locks
- Lower overall height
- Lower loading height
- Foot brake on loading side (optional)
- Easy access to operating components
- Engineered tough drop frame assembly

THAT'S **ABC**

WITH OUR INVOLVEMENT IN THE SOLID WASTE INDUSTRY DURING THE PAST 30 YEARS, WE HAVE FOUND THE FOLLOWING CRITERIA TO HOLD TRUE IN THE SUCCESS AND OPERATION OF ANY AND ALL COLLECTION EQUIPMENT.

1. DURABLE CONSTRUCTION
2. LOWEST MAINTENANCE COSTS
3. MAXIMUM LEGAL PAYLOADS
4. LOWEST, PER TON, MAN HOUR COSTS
5. SIMPLICITY IN DESIGN

WE ARE ALSO OF THE OPINION THAT THE OPERATORS OF SUCH EQUIPMENT, ALONG WITH THE SUPPLIER, BE IN TUNE WITH EACH OTHER, IMPLEMENTING IDEAS AND CHANGES TO KEEP IN PACE WITH THESE IMPORTANT STANDARDS, STANDARDS THAT ARE BUILT INTO THE **ABC**
