AVAILABLE CHASSIS

Due to the demand for Fastpacks and the delay in delivery of Chassis-Cabs, we have a limited number of trucks on order to expedite delivery to you. Following are the specifications of the trucks on order:

CHASSIS-CAB FOR 10 YARD

1970 Chevrolet Model CS31003  
14,000# GVW  
133" Wheelbase - 60" Cab to Axle  
292 cu. in. H.D. 6 cylinder engine  
4 Speed transmission  
11,000# rear axle @ 6.17 ratio  
Springs: 2000# front - 5900# rear  
H.D. Brakes w/vacuum assist  
H.D. Clutch  
H.D. Radiator & Cooling  
L. & R. Sr. West Coast Mirrors  
Tires: 7.00x18" 8P.R. (dual rears)  
Cab: White w/black interior

CHASSIS-CAB FOR 13 YARD

1970 Chevrolet Model CS41203  
18,000# GVW  
137.7" Wheelbase - 72" Cab to Axle  
292 cu. in. H.D. 6 cylinder engine  
4 Speed transmission  
13,500# rear axle @ 6.40 ratio  
Springs: 3000# front - 8750# rear  
H.D. Brakes w/vacuum assist  
H.D. Clutch  
H.D. Radiator & Cooling  
L. & R. Sr. West Coast Mirrors  
Tires: 7.00x20" 8P.R. (dual rears)  
Cab: White w/black interior

CHASSIS-CAB FOR 13 YARD

1970 Ford Model F500  
144" Wheelbase - 72" Cab to Axle  
13,000# rear axle @ 6.2 ratio  
Springs: 2600# front - 6700# rear  
H. D. Clutch 12"  
H.D. Radiator - extra cooling  
Tires: 7.00x20 8P.R. (dual rears)  
Cab: White w/black interior

16,000# GVW  
4 Speed transmission  
5,000# front axle  
H.D. Brakes - Orscheln Park Brake  
Lever w/warning light  
L. & R. Sr. West Coast Mirrors  
Wheels: 20 x 6.0 Hole Disc

### REDUCE REFUSE COLLECTION COSTS - INCREASE EFFICIENCY

Costs of everything are rising; we can't help you get a rate increase, but we can help lower your operating costs.

OUR FASTPACK HAS CUT OUR TRASH HANDLING COSTS APPROXIMATELY 35% ON OUR GROUNDS, AND OUR DISPOSAL COSTS APPROXIMATELY 55%, ACCORDING TO FOREST HOME, CHRISTIAN CONFERENCE CENTER, CALIF.

With increased summer collections for recreation areas, vacationers, etc., now is the time to consider a utility-size Fastpack compaction body.

7100# IN MY 13 YD. FASTPACK REPORTS LUIE McFARLAND, LIVE OAK, CALIF. 43.75% OF HIS TOTAL LADEN WEIGHT WAS PAYLOAD WITH THE ADDED BENEFIT OF ONE TANKFUL OF GASOLINE EVERY TWO DAYS VS. A TANKFUL EVERY DAY IN HIS LARGE UNIT.

We use our 43,000#, 3-stage telescopic cylinder in its most efficient manner rather than through a complicated, inefficient scissors action. We attain a ratio of approximately 4 to 1 with most materials. There is no hydraulic cylinder in the cab, so no chassis modification is required. Construction is heavy - all framing is structural tubing or structural channel.

DON STRONG OF NEAH BAY, WASH., SAYS, "I LOAD MORE IN MY NEW FASTPACK THAN I DID IN THE 16 YD. REAR LOADER IT REPLACES. IT ALSO CUT DOWN THE TIME BY ALMOST ONE-HALF. THANKS FOR A REALLY GOOD QUALITY UNIT THAT WILL HANDLE THE ROUGH SERVICE."

A Fastpack body mounted on a relatively inexpensive chassis of 1-1/2 tons can operate in areas inaccessible to large vehicles. Eliminate walking time by driving in private roads and trailer parks where larger trucks are often overweight or too large to maneuver.

EMIL NEDJL OF OROFINO, IDAHO, WRITES, "AFTER 3 MONTHS I AM STILL AMAZED AT THE AMOUNT OF PAYLOAD MY 10 YD. FASTPACK HOLDS. I HAVE A ROUTE THAT 2 MEN CAN JUST BARELY LOAD INTO MY 16 YD. BEING SHORT HANDED, I TOOK THE FASTPACK ALONE PLANNING TO MAKE 2 TRIPS. TO MY SURPRISE, I GOT THE ENTIRE ROUTE IN THE FASTPACK - AND IN LESS TIME. THIS IS A TWO WEEK ACCUMULATION FROM 96 RESIDENCES!"

If you have need for a one or two man operation, economy of vehicle operation, short turning radius, low overall height or other situations not ideally suited to big truck operation, why not let us show you what Fastpack can do for you.

FOR A TYPICAL USER REACTION, CONTACT LOUIS LAGOMARSINO OF THE AUBURN DISPOSAL SERVICE, AUBURN, CALIF. ON HOW WELL HIS FASTPACKS ARE WORKING FOR HIM. AUBURN DISPOSAL ORDERED ITS FIRST FASTPACK ABOUT A YEAR AGO AND NOW HAS THREE ON THE JOB!
