EQUALIZING
DOUBLE LIFT ARM
HYDRAULIC HOIST

GH-567 HOIST FOR B1-F, B1-H AND B1-J SERIES DODGE "Job-Rated" TRUCKS

For reserve power to handle capacity loads, the Galion GH-567, with its oversize 7" cylinder and reinforced hoist construction, makes the Dodge "Job-Rated" truck a most profitable unit for all general material handling work. Like all Galion hydraulic dump bodies, the hoist features TWO DOUBLE STRENGTH, EQUALIZING LIFT ARMS. These work in conjunction with a heavy cast cross-head to perfect a mechanism providing brute strength, smooth lifting action, efficiency and trouble-free service. The Galion precision built pump operates on low pressures and provides a dependable source of hydraulic power with plenty of reserve for safety.

GALION **GH-576** Hoist for 1 1-2 ton
and 2 ton long wheelbase Dodge Trucks

GALION **GH-58** Hoist for heavy duty
Dodge Trucks 3

GALION FEATURES A COMPLETE LINE OF *Allsteel* DUMP BODIES and HOISTS FOR EVERY PURPOSE

A new Dodge "Job-Rated" truck equipped with the Galion "Job-Engineered" hydraulic hoist and dump body, combine to provide the dependability desired by all vocations for their dump body work. The Galion hydraulic hoist with its patented double lift arm construction is unparalleled for maintenance-free operation. Galion all-steel bodies with their strong reinforced construction, rigid channel and "I" beam understructures stand up under the roughest kind of use. There's a right size and type of Galion hoist and body to make the Dodge "Job-Rated" truck into the best dump unit for all types of hauling work. Thousands of satisfied operators prefer Galions - it's the dump body unit that outlasts the chassis.

A RIGHT SIZE FOR EVERY JOB

HOIST MODEL	HOIST RATING	BODY LENGTH	CYLINDER SIZE	GROUND CLEARANCE	MOUNTING HEIGHT
GH-56	7½ tons	8'	6 5/32" dia.	34"	13"
GH-567	8½ tons	8'	7 5/32" dia.	34"	13"
GH-576	8½ tons	10'	6 5/32" dia.	33" to 45"	Std. 14"
GH-577	9 tons	10'	7 5/32" dia.	33" to 45"	Low 8"
GH-57	10½ tons	10'	O' size 7 5/8" dia.	33" to 45"	14"
GH-58	12 tons	10'	O' size 8 5/8" dia.	33" to 45"	14"
GH-60	22 tons	10'	10" dia.	33" to 45"	14"

STANDARD GALION 8' BODIES FROM 2 TO 4 YARD CAPACITIES

Model 12—Contractor's heavy duty body with running boards and pyramid side braces for extra strength.

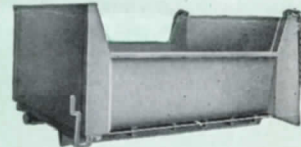

Model 9—Reinforced plain side body with full length running boards and box type front and rear corner posts.

Model 2—Plain side body for general hauling. 10 gauge high carbon steel, one piece construction.

Model 3—Flared side to permit crowning of load. 75 cubic feet coal body. Front end built high to protect cab. 10 gauge high carbon steel, one piece construction.

Model 8—Straight side coal body. 75 to 128 cubic feet capacities. High head and endgate permit use of side boards to add 45 cubic feet capacity.

Model 5—Scow type garbage body with smooth welded seams. Body is water tight. Capacities 2 to 3 cubic yards. Tarpaulin rings furnished when specified.

Model CX-6—All purpose body with removable sides and rear corner posts. Double acting endgate drops flush with floor.
