

MANUFACTURER OF REFUSE BODIES & RELATED EQUIPMENT

**WE
SHAPE
THE
INDUSTRY**

Out of the main production building, situated on AMREP's ten acre parcel of land, in Ontario, California emerge five hundred completed refuse trucks per year. (Bodies, subassemblies, chassis hydraulics, mounting and paint schemes are all accomplished at the Ontario plant.) The consolidation of AMREP's facilities allows our professional staff to expertly monitor all phases of production.

AND MODERN FACILITIES ARE COMPANY'S SPECIFIC NEEDS

All cylinders are fabricated in Amrep's 18,000 sq. ft. "state-of-the-art" machine shop, located at 1603 Marigold Ave., Ontario, California (adjacent to the main plant). Computerized equipment is used to produce over 9,500 quality built cylinders each year. Cylinders are manufactured for all makes of refuse bodies as well as specialized equipment.

An extensive inventory of replacement parts is constantly maintained at Amrep's 15,000 sq. ft. parts facility. Next to the main production building, this area of the Amrep complex also houses a workshop, equipped for cylinder repair and rebuilding.

Amrep's paint facility is located on-site and is designed to accommodate two trucks each day.

The five-bay repair shop is equipped to repair all makes of refuse & recycling bodies.

Amrep was incorporated in 1976 and over the last quarter of a century has become the premier refuse body company, serving the West Coast. During the past two and a half decades Amrep has introduced numerous innovations to the waste-hauling industry, each of which has become, or is currently becoming, an industry standard. The company is constantly striving to be on the leading edge of technology.

Amrep, Inc. is a family owned business, with a workforce of more than 140 people. Each of the company's employees always places quality and customer service first and foremost. This employee attitude blends perfectly with Amrep's overall philosophy...always provide the best product at the lowest possible price.
