# THE **BIG** NEW MODEL "18" HELIX TITE™ PAK

- 30% to 50% greater load capacity — more pay stops per load.
- Completely hydraulic — for labor saving, one man operation.
  - Compact design for close quarters — easier to maneuver.
  - Lower initial investment — reduced operating costs.
  - Automatic tail gate lift and lock — for operator safety.

## BIGGER PROFITS The proof is in the packing

A NEW and DIFFERENT packing principle is why you get more from the HELIX TITE-PAK.

**Save time and labor** — Continue loading refuse even while packing. Hydraulic lift for steel drums and containers.

**Economical** — Low initial cost plus low operating costs.

**Large capacity** - 18 cu. yd. bed including hopper, (14 cu. yd. packing area plus 4 cu. yd. hopper).
