PAK-TAINER

IN THE PICTURE!

One 4 cu. yd. Pak-Tainer container will hold 800 gallons of your trash or waste, neatly and compactly, and we'll empty it for you on a regular schedule . . . for less than you could possibly handle it yourself!

LEAK-PROOF!

There's a
Cobey
Container
to meet
your
every
need!

(SEE BACK FLAP)

Almost everybody's got refuse and/or scrap removal problems . . . let's talk about yours. You see, handling such material efficiently and inexpensively is our business, and chances are very good we can **completely** solve your problems, for much less than you probably think.

Placed at a strategic location (more than one if you need it!), a sturdy steel Cobey Container of the proper size is ready and willing to accept all the troublesome waste materials connected with your business, and keep it covered from view and vermin until a regularly scheduled pickup by our Pak-Tainer truck. You invest no money, other than our low monthly service rates, since the containers remain our property. That also means we assume the responsibility of keeping them in repair, of course.

In short, we assume **all** the headaches connected with your refuse accumulation and removal problems. Why not give us a call, and talk it over?

EROSION-RESISTANT!

HANDLES ANYTHING!

EASY-TO-USE!

Good Housekeeping makes good sense!

GOOD PUBLIC RELATIONS A clean, well-kept place of business can mean as much as all your advertising and sales activities, and Pak-Tainer offers it at so little cost.

GOOD EFFICIENCY It's been proved... people simply work better in surroundings they know are sanitary, neat and orderly. In effect, the Pak-Tainer system can increase productivity!

IMPROVED EMPLOYEE PRIDE An important element in measuring an organization's success, but often overlooked. Good housekeeping can even make labor procurement an easier task!

BETTER UTILIZATION OF SPACE Almost every operation is always in need of more space. The Pak-Tainer system, by eliminating "dead" rabbit corners and areas, can supply it without expansion!

ELIMINATION OF FIRE AND HEALTH HAZARDS Ten years of Pak-Tainer container service wouldn't come close to equalling the cost of a fire or a damage suit in connection with your business.

MORE ECONOMICAL HANDLING OF REFUSE Rubbish is our business! We can handle it far less, because we're trained and equipped to do it faster and more efficiently than you can yourself.

Let our experts survey your good housekeeping needs
