

E-Z Pack[®] HCSL-1410

High Compaction Side Loader for municipal and contractor use

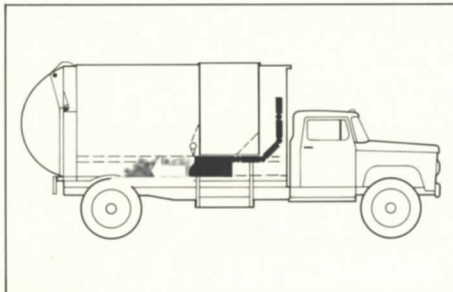

Like having a stationary compactor on wheels. The E-Z Pack[®] high compaction side loader: rugged, dependable, hard working. And because you get more in, you save on travel costs, fuel costs, labor costs, time costs, dump costs. Great for an economy run! Look for these fine features, too.

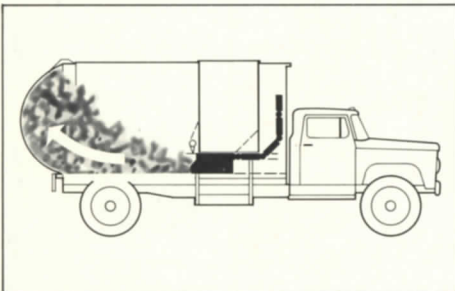

- low profile ram for more compaction force, remarkable payloads.
- two body closures on each side for crew convenience, efficiency.
- unique full length ram ejection for complete clean-out every time, easy-to-clean-out sump, too.
- low maintenance for optimum use, little downtime.
- has an overall capacity of 14 cubic yards and densely compacted area of 10 cubic yards —does the work of larger, costlier units.
- optional Side Dumper—one side; either or both sides.

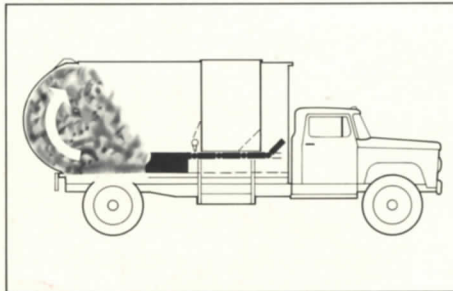

1. After refuse is dumped into side closures . . .

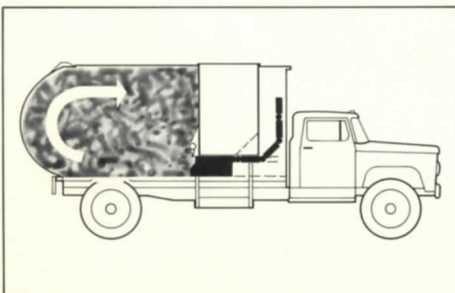

2. low profile ram begins cycle . . .

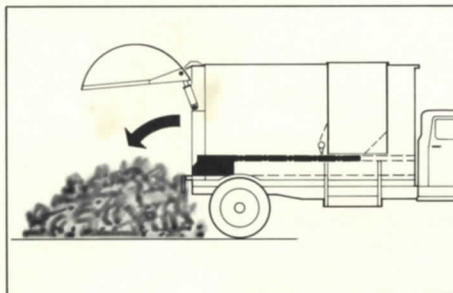

3. and pushes refuse back and up . . .

4. in circular motion for greater compaction . . .

5. and greater capacity. When unit is full . . .

6. full-length ram ejection cleans completely.
