

# Make your refuse pick-ups in E-Z Pack Side Loaders.

**(You'll save money the very first month.)**

People are always testing something for costs. They call them economy runs. Have you ever had one in your operation? Give it a try. You might be in for a surprise. The E-Z Pack Side Loader can save you money. Here's why: low initial cost, low maintenance, little or no down time. Add in the efficiency factor, the durability, the big capacity . . . and E-Z Pack's working for you all the way. Contact your E-Z Pack distributor today. He'll get your operation running full force. *Now that's economical. Right!*

**E-Z TO LOAD:** Three doors on each side plus two roof doors make loading even the largest, bulkiest items a snap. Dump it in either side, both sides at once, or from the top. Our E-Z Pack Side Loader can take it . . . easily.

**E-Z TO PACK:** Heavy duty packer plate compresses each load . . . tightly . . . with a simple outside control. There's no lost space either. The scientifically designed plate packs the body full: top, corners, sides, and bottom.

**E-Z TO EJECT:** One lever releases all six tailgate latches, another hydraulically raises the tailgate up out of the way. Then that packer plate pushes everything out. Everything! And you're always on a solid foundation . . . There's no raising the body to dump.

**E-Z PACK COMPANY**  
Division of Hercules Galion Products, Inc.  
Galion, Ohio 44833
