

# OPEN-TOP ROLL-OFF CONTAINERS

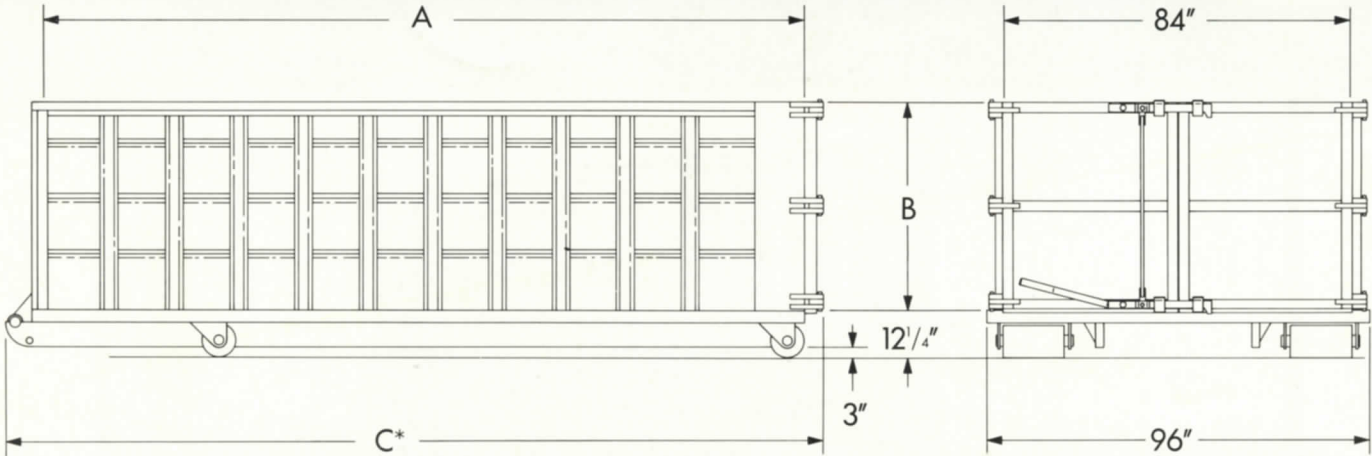

E-Z PACK OPEN TOP ROLL-OFF CONTAINERS are ideal for demolition jobs — just spot a convenient container close to clean up areas. Eliminates tying up several expensive Dump Trucks, by allowing one Tilt Frame Truck to handle a number of containers. Good for incinerator ash removal, collection of non-compactible refuse, wood, stone, etc. Containers can be loaded by hand, hopper chute or front end loaders. Can also be used to accumulate scrap metal for salvage.
