IT'S A BIG STORY IN SUPER PRODUCTION

WORTH IT'S WEIGHT IN GOLD TO EVERY OPERATOR

PENINSULA SANITATION CONTRACTS TO PROVIDE ONCE PER WEEK GARBAGE COLLECTION TO 6,400 FAMILY UNITS (APPROXIMATELY 20,000 POPULATION) IN THE CITY OF MARQUETTE, MICHIGAN ... LOCATED ON THE SOUTHERN SHORES OF LAKE SUPERIOR IN MICHIGAN'S BEAUTIFUL UPPER PENINSULA.

CITY COLLECTION - THREE REAR LOADERS - 208 MANHOURS PER WEEK

Prior to its contract with "Peninsula", the City of Marquette hauled its own garbage using three rear loaders with two man crews averaging 104 equipment hours and 208 manhours per week. Each crew averaged 492 family units per day.

CONTRACT COLLECTION - ONE REAR LOADER - 126 MANHOURS PER WEEK

"Peninsula" started the contract using one rear loader with a three man crew. They averaged 42 equipment hours and 126 manhours per week. With overtime the crew averaged 1,280 family units per day.

EVO-D COLLECTION - ONE SIDE LOADER - 76 MANHOURS PER WEEK

Last August "Peninsula" received two Model 3400 EVO-D's. Peterson is using just one EVO-D with two men to service the 6,400 family units in less than 38 hours in four work days per week. This is 38 equipment hours and 76 manhours per week. This rate of collection is a home served every 16 SECONDS, after discounting 60 minutes Overhead time and 90 minutes Dump Haul time. Brian and Larry average 1,600 family units per day.

THIS IS INDEED SUPER PRODUCTION WITH ONE EVO-D AND ITS TWO MAN CREW. CONGRATULATIONS TO JOHN PETERSON, LARRY HAGLUND AND BRIAN PETERSON.
