

# **Lödal, Inc.**

Kingsford, Michigan 49801

## **Lodal ECO 3000 Recycler**

Chassis is designed, engineered and constructed to be a stop and go curbside refuse recycler - centralized electrical componentry - oversize axle and suspension components are engineered for longer brake, bearing and suspension life - allowing for lower maintenance costs.

Low entry cab design allows easy entrance and exiting - full operating controls on both sides of cab.

Cab designed for one, two or three person crews.

Cab is also available with roof mounted ventilator.

Load capacity 24 cubic yards - three, four or five bin configuration available - optional canopy bin covers increase vehicle capacity to 28 cubic yds.

Dual side loading, fold up loading doors and fold down step allow lower loading heights.

In cab hydraulic controls for each bin allowing cleaner, faster unloading.

Low dump height - allows low overhead ceiling clearance.

For additional information call Lodal Inc. for the dealer nearest you.
