- Available on all Leach units: Standard, SaniCruiser or 2-R
- Operated by Packing Plate
- Positive, simple hook-up
- Field tested and accepted

Leach Standard Packmaster®

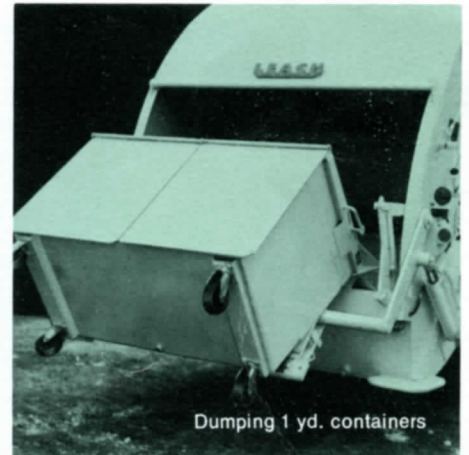

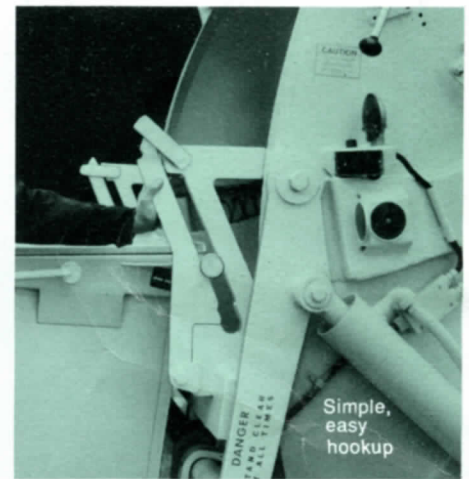

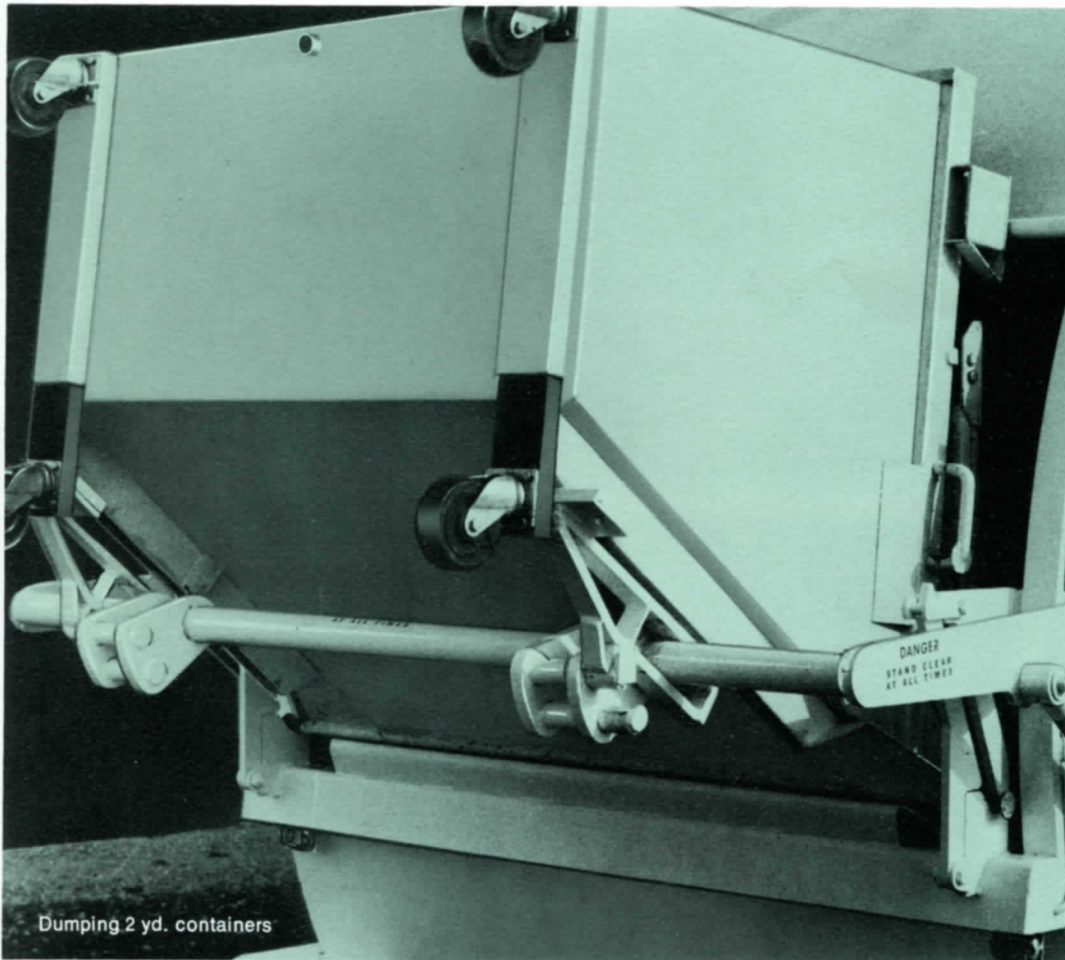

Leach SaniCruiser®

Leach 2R Packmaster®

Leach Hydraulic Container Attachment

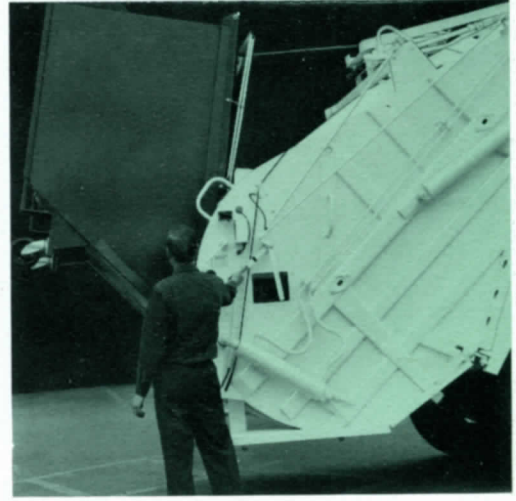

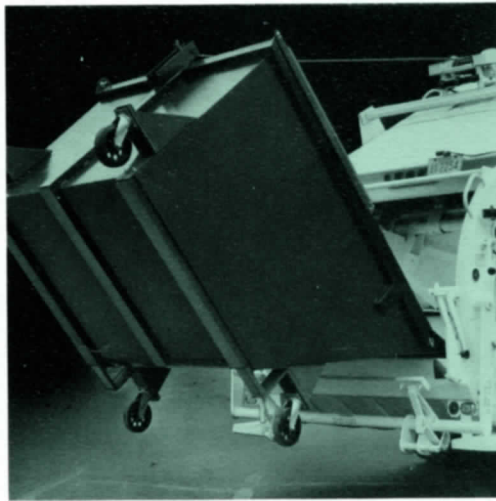

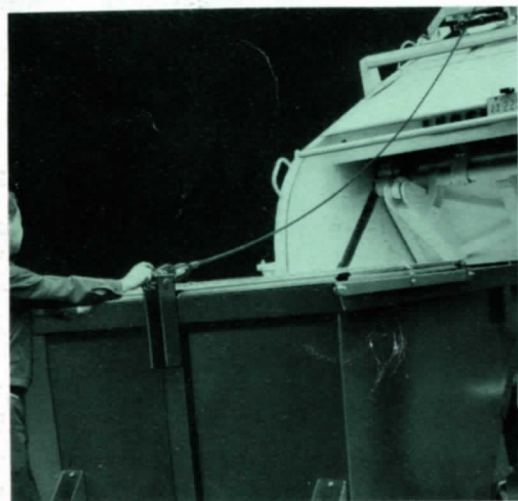

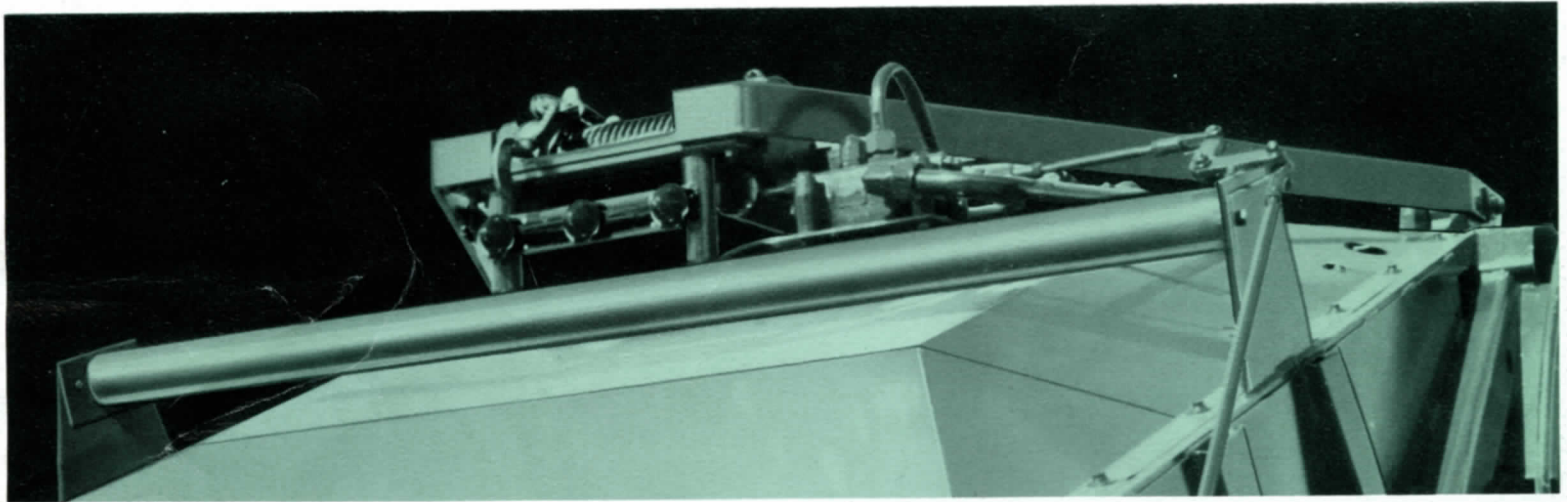

The big new lift for containers

- Available on all sizes of Leach units: Standard, SaniCruiser or 2-R
- Dumps rear loading containers—1 to 3 cu. yds.
- Fast dumping
- Works independently of Packing Plate
- Available for either factory or field installation

This automatic dumping attachment for rear loading containers is built to exacting manufacturing specifications for trouble free operation. The Latch Assembly can be used with the overhead winch when dumping 4 to 10 yd. containers. Leach quality . . . Leach designed . . . Leach made—for fast, easy container dumping.

Leach Overhead Winch/Hoist

Handles 3 to 10 cu. yd. containers

- Available on all Leach units: Standard, SaniCruiser or 2-R
- Adaptable to a variety of commercial routes
- Works independently of Packing Plate
- Simple, one lever control
- Rugged, durable and trouble free for complete, fast dumping
- Available for either factory or field installation
