

...THE NORBA FERRET

Intermittent Loading Refuse Collection Vehicle

- Low Purchase Price
- High Compaction
- Body width only 80"
- Ejection Discharge
- Substantial Fuel Savings

The Norba-Ferret is designed to negotiate those awkward back alleys and country lanes. The Intermittent Loading Hopper is equally efficient in handling town centre as well as domestic collections. With a compaction ratio of 3-5:1 you get a great pay load from the smallest Norba vehicle.

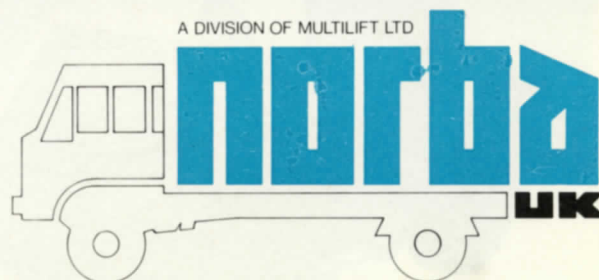

Please send me complete Technical specification data on the Norba Ferret.
