

ERGONOMIC DESIGN FOR AN EFFICIENT BIN HANDLING

The L 413 is a universal lifting device for emptying containers from 120 up to 1280 litres containers fast and efficiently. The containers are picked up on the comb or with the optional DIN lifting arms. Single cycle loading can be done in combination with fixed or drop-down rave.

The L413 is suitable for the tailgates of the RL 200 and RL 300 bodies.
